

2022 Annual Partnership Opportunities

About Grand Farm

Grand Farm, led by Emerging Prairie, aims to capitalize on the region’s potential in the agriculture and technology industries. The Grand Farm Initiative inspires collaboration among businesses, organizations, & researchers to accelerate toward the future of farming.

Working with Grand Farm

“When we were planning a new product launch, we really wanted to do it at Grand Farm. We worked with the team to coordinate an excellent plot study that helped us drive real-world results into our product unveiling. Andrew and the team helped us execute an excellent event. Together, we were able to attract a larger, broader audience which created more value for the participants all around. The event also attracted local press. All of these things were more than we could have done on our own and I believe a shining example of what working with the team at Grand Farm can accomplish.”

- Joe Heilman, General Manager, Intelligent Ag Solutions
